---	---

Bug in use case <005> < Edit his or her personal data>

Description

Al intentar editar los datos personales del actor autenticado, se permite dejar el email en blanco.

Results

El equipo de tests encontró el bug.

Bug in use case <008> <Manage the activities involved in a subject that he or she teaches, which includes listing, creating, editing, and deleting them>

Description

Al intentar editar los datos de una actividad, se permite dejar el título en blanco.

Results

El equipo de tests encontró el bug.

Bug in use case <009> <Manage the assignments involved in a subject that he or she teaches, which includes listing, creating, editing, and deleting them. They can also grade the submissions that groups of students have made regarding an assignment>

Description

Al intentar crear un assignment, se permiten introducir unas fechas erróneas: la fecha de inicio puede ser posterior a la de fin.

Results

El equipo de tests encontró el bug.

Bug in use case <009> <Manage the assignments involved in a subject that he or she teaches, which includes listing, creating, editing, and deleting them. They can also grade the submissions that groups of students have made regarding an assignment>

Description

Al intentar crear un assignment, se permite introducir un link incorrecto.

Results

El equipo de tests encontró el bug.

Bug in use case <013> < Submit a deliverable to an assignment as many times as he or she needs as long as the assignment is active, that is, the current date is between its start and end dates >

Description

Al intentar entregar un entregable, se permite introducir un contenido nulo o en blanco.

Results

El equipo de tests encontró el bug.

Bug in use case <020> <Manage his or her seminars, which includes listing, creating, editing, and deleting them>

Description

No se puede editar correctamente un seminario, sino que se crea uno nuevo con los datos modificados del que queríamos editar.

Results

El equipo de tests encontró el bug.
